USE IT . . .

Between the covers of this book, conveniently listed by commodity headings, you will find:

The merchant whose address you've forgotten.

The store, the name of which is not quite clear in your mind.

Plumbers, roofers, glaziers, movers, decorators, awning makers, private detectives, taxis, a man to rid your house of pests, and all the hundred and one services and "things" you need now or may need at some future time.

Neighborhood merchants too. Drug Stores, grocers, tailors, garages, laundries, etc.

Briefly, everything you want—and arranged so you can find what you want easily.

Look through this book before you make a purchase - shop carefully -

If the sender does NOT desire to pay such amount of fee as will afford indemnity up to the FULL VALUE of the article, the *EXCESS* of the *DECLARED VALUE* of the article over the maximum amount of indemnity covered by the registry fee paid will be subject to a SURCHARGE in addition to the registry fee.

The following surcharges apply *when the declared value exceeds the maximum indemnity covered by the registry fee paid:*

By not more than $ 50.00	1¢
By more than 50.00 but not more than $ 100.00	2¢

By more than 800.00 but less than 1,000.00	7¢

When the EXCESS of the declared value over the maximum amount of indemnity prescribed for the registry fee paid by the sender is *$1,000 or more* the surcharge is computed not on the total declared value of the registered article but upon each $1,000 or part of $1,000 of the EXCESS OF THE *DECLARED VALUE* over the limit of indemnity covered by the fee paid by the sender and according to destination within the several zones, applicable to fourth class matter as follows:

For local delivery	8¢	Fourth Zone	11¢
First Zone	8¢	Fifth and Sixth Zones	13¢
Second Zone	9¢	Seventh and Eighth Zones	15¢
Third Zone	10¢		

NOTE: Senders are required to declare the full value of the registered matter mailed and to pay a surcharge based on the excess of the full value over the amount of postal registry indemnity covered by the registry fee paid by the sender, and the fact that the sender may have the article covered by commercial insurance or that he is willing to accept the limit of indemnity ($5) covered by the minimum registry fee of 15 cents does not relieve the sender from declaring the full value and paying the prescribed surcharge on the amount by which the full value exceeds the amount of postal indemnity payable for the registry fee paid.

No surcharge will be collected on registered articles which contain exclusively checks, drafts, or other written or printed matter having no intrinsic value and which can be duplicated without expense or at a nominal cost. The value of such registered articles need not be declared and may be registered at the minimum fee of 15 cents.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matters.

Prepay postage fully on all letters and parcels.

Use street and number in return address on your envelope and also letter heads.

Always address mail for city delivery to street and number, and request correspondents to do likewise.

Use designation North or South, West or East when it is a proper part of the address and save delay in delivery.

Insure valuable parcels.

Wrap parcel post carefully in heavy paper, and tie knots securely.

Do not use cards or envelopes smaller than a Government Postal Card.

Avoid the use of the word "City" as a part of the address. It may result in delay.

Avoid abbreviation of state names: Pa., Va., and La., frequently look very much alike when written. It is difficult to distinguish between Me., Mo., Md., and Ind., or Cal., and Col. The abbreviation recommended for Colorado is Colo., and for California is Calif.

YOU WILL OFTEN GAIN A DAY'S TIME IN DELIVERY BY DEPOSITING MAIL AS SOON AS IT IS READY.

Pamphlets showing the hours "Mails Close" at the post office, and the time in transit between all of the large cities in the United States, may be had upon application to the Superintendent of Mails.

Why Waste
Energy?
Mrs. Johnson knows the advantages of saving her energy. That's why she has extension telephones. They save her hundreds of steps a day. There's a telephone in the kitchen, one in the living room, beside her easy chair, and, of course, one in the bedroom.
No wonder she looks and feels better than the rest of her friends!

..Why NAPHTHA?

. . because cleaning in Naphtha preserves original beauty and lustre of Oriental and Domestic rugs.

RUGS are drenched for hours in pure distilled naphtha. Stains dissolve. Dirt and dust are gently removed by continual rinsing in thousands of gallons of pure naphtha. Cleans surface, pile and back. Destroys moth eggs. It does not remove the natural oils in rugs. Leaves the threads strong and full of life. Colors are restored to their warmth and beauty.

Also, we DRY STEAM every rug and carpet to raise crushed pile. All domestic rugs and carpets resized to insure against limpness.

A naphtha cleaned rug or carpet retains its life and body.

WASTED STEPS

The average wife walks several miles in her daily household duties. Trudging back and forth to answer the telephone—accounts for many hundred needless steps.

How to save them? Simply have an extension telephone within a dozen steps of you at all times—whether you're in the living room, kitchen or bedroom. You'll never feel the cost—it's only a few cents a day for each extension telephone.

The best people learn to DANCE

at Arthur Murray's

This famous school of dancing has become a New York tradition. Arthur Murray's pupils include many people from our best families—smart young debs, society leaders, well-known business and professional men. Here they not only learn how to dance well, but later on return again and again to keep their dancing modern.

In Arthur Murray's pleasant studios you can quickly become a popular, interesting partner, though you may know little or nothing about dancing. His talented, expertly-trained staff has taught thousands of awkward individuals to dance rhythmically, faultlessly.

A few lessons are all you need. And you'll be astonished how little it costs. Rates were never lower. Why not call today for the interesting dance analysis offered *without charge?* Studios open daily till 10 P.M. VAnderbilt 3-4034.

The modern dance breathes the spirit of rhythm and grace, expresses the highest type of poetry in motion and harmonizes with *all* that savors of Terpsichorean art . . . the conventional and the constrained is ever absent where the dances of the hour receive the interpretation of *true* artists . . . and 'tis here the School of Remey long since won repute, not only for its *appreciation* of what the art of dancing signifies, but for its unvarying success in *imparting that appreciation to others*, inspiring as well as instructing those seeking tuition.

Personal Contact

Personal contact—with whomever you wish—in any part of the country. The telephone gives you this personal, voice-to-voice contact. It puts speed and convenience in the administration of business. A long distance call frequently saves a railroad trip; it often means a customer satisfied; or a carload of goods sold. Yet it costs so little—even to places far away!

COMFORT

When you install extension telephones you add more comfort and convenience to your home. Always within reach, they save countless footsteps and the annoyance of running from one end of the apartment to the other every time the telephone rings. Your home deserves this added up-to-dateness, especially since it costs so little.

Our nearest Business Office will be glad to suggest convenient telephone arrangements for your home.

WASTED STEPS

The average wife walks several miles in her daily household duties. Trudging back and forth to answer the telephone—accounts for many hundred needless steps.

How to save them? Simply have an extension telephone within a dozen steps of you at all times—whether you're in the living room, kitchen or bedroom. You'll never feel the cost—it's only a few cents a day for each extension telephone.

Before enrolling in any school — SEE the classrooms, equipment, teachers and student body. This costs nothing and saves many regrets. The age of the institution plus proper environment are as much a part of what a school has to offer as its courses.

Personal Contact

Personal contact—with whomever you wish—in any part of the country. The telephone gives you this personal, voice-to-voice contact. It puts speed and convenience in the administration of business. A long distance call frequently saves a railroad trip; it often means a customer satisfied; or a carload of goods sold. Yet it costs so little—even to places far away!

WHAT THE TELETYPEWRITER SERVICE IS, AND HOW IT OPERATES

The teletypewriter looks and operates like an ordinary typewriter. Messages, reports, inquiries, typed in your office are *instantly* and identically reproduced on any other teletypewriter to which it is connected . . . 300 feet or 3,000 miles away.

As a subscriber to this Bell System service, your typist simply calls the desired teletypewriter by typing its number and "central" immediately makes the connection. Connections are made for five minutes or as long as you wish.

TEN OUTSTANDING FEATURES

Availability . . . The same as telephone service. Teletypewriter "central" will connect any subscriber anywhere in the United States at any time to any other subscriber.
Speed . . . Connections are fast—comparable to the telephone.
Two-Way Service . . . Subscribers can type back and forth on the same connection, making inquiries and replies possible.
Accuracy . . . The copy received is identical with that transmitted. Ambiguities in text can be clarified during the connection.
Simplicity . . . Any competent typist can operate it.
Privacy . . . Communication is direct between sender and receiver.
Flexibility . . . Letter sized paper or your own forms for orders, reports, deliveries, and similar matters can be used . . . As many as six copies can be made by each teletypewriter.
Permanent Records . . . Each subscriber has typewritten copy.
Low Cost . . . A most economical form of written communication.
Dependability . . . A Bell System service.

COMFORT
When you install extension telephones you add more comfort and convenience to your home. Always within reach, they save countless footsteps and the annoyance of running from one end of the apartment to the other every time the telephone rings. Your home deserves this added up-to-dateness, especially since it costs so little.
Our nearest Business Office will be glad to suggest convenient telephone arrangements for your home.
